

SMMS Privacy Policy

Sprinklr is a social media management system (“SMMS”). The Sprinklr system is a tool that enables companies and organizations, or Sprinklr “Customers,” to process and manage publicly available information about their brand on the Internet.

This means that the Sprinklr system aggregates and saves a record of publicly available information about your interaction with a company or organization on the Internet.

Sprinklr proactively encourages each of its Customers to engage in privacy best practices. While Sprinklr cannot guarantee that its Customers will abide by the best practices in user privacy, it does its best to ensure that everyone that is part of its ecosystem is aware of those practices and has received concrete guidance and/or training concerning implementation. Of course, Sprinklr Customers are responsible for their own use of the Sprinklr platform.
